AUDIT REPORT

MARCH 31, 2007

Auditing Procedures Report

Issued under P.A. 2 of 1968, as amended and P.A. 71 of 1919, as amended.

Local Unit of Government Type <input type="checkbox"/> County <input type="checkbox"/> City <input type="checkbox"/> Twp <input type="checkbox"/> Village <input checked="" type="checkbox"/> Other		Local Unit Name ADDISON FIRE DEPT AND EMERGENCY	County LENAWEE
Fiscal Year End 3-31-2007	Opinion Date 8-13-2007	Date Audit Report Submitted to State 8-16-2007	

We affirm that:

We are certified public accountants licensed to practice in Michigan.

We further affirm the following material, "no" responses have been disclosed in the financial statements, including the notes, or in the Management Letter (report of comments and recommendations).

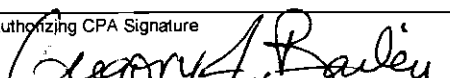

YES NO

Check each applicable box below. (See instructions for further detail.)

1. ☒ ☐ All required component units/funds/agencies of the local unit are included in the financial statements and/or disclosed in the reporting entity notes to the financial statements as necessary.
2. ☐ ☒ There are no accumulated deficits in one or more of this unit's unreserved fund balances/unrestricted net assets (P.A. 275 of 1980) or the local unit has not exceeded its budget for expenditures.
3. ☒ ☐ The local unit is in compliance with the Uniform Chart of Accounts issued by the Department of Treasury.
4. ☒ ☐ The local unit has adopted a budget for all required funds.
5. ☐ ☒ A public hearing on the budget was held in accordance with State statute.
6. ☒ ☐ The local unit has not violated the Municipal Finance Act, an order issued under the Emergency Municipal Loan Act, or other guidance as issued by the Local Audit and Finance Division.
7. ☒ ☐ The local unit has not been delinquent in distributing tax revenues that were collected for another taxing unit.
8. ☒ ☐ The local unit only holds deposits/investments that comply with statutory requirements.
9. ☒ ☐ The local unit has no illegal or unauthorized expenditures that came to our attention as defined in the *Bulletin for Audits of Local Units of Government in Michigan*, as revised (see Appendix H of Bulletin).
10. ☒ ☐ There are no indications of defalcation, fraud or embezzlement, which came to our attention during the course of our audit that have not been previously communicated to the Local Audit and Finance Division (LAFD). If there is such activity that has not been communicated, please submit a separate report under separate cover.
11. ☒ ☐ The local unit is free of repeated comments from previous years.
12. ☒ ☐ The audit opinion is UNQUALIFIED.
13. ☒ ☐ The local unit has complied with GASB 34 or GASB 34 as modified by MCGAA Statement #7 and other generally accepted accounting principles (GAAP).
14. ☒ ☐ The board or council approves all invoices prior to payment as required by charter or statute.
15. ☒ ☐ To our knowledge, bank reconciliations that were reviewed were performed timely.

If a local unit of government (authorities and commissions included) is operating within the boundaries of the audited entity and is not included in this or any other audit report, nor do they obtain a stand-alone audit, please enclose the name(s), address(es), and a description(s) of the authority and/or commission.

I, the undersigned, certify that this statement is complete and accurate in all respects.

INDEPENDENT AUDITOR'S REPORT

Addison Fire Department and Emergency Medical Service
Addison, Michigan

We have audited the accompanying financial statements of the governmental activities and each major fund of the Addison Fire Department and Emergency Medical Service (the "Department") as of and for the year ended March 31, 2007, which collectively comprise the Department's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Department's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Addison Fire Department and Emergency Medical Service as of March 31, 2007, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages 2-5 and 20-22, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Bailey, Hodshire + Company, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS

ADDISON FIRE DEPARTMENT AND EMERGENCY MEDICAL SERVICE

Management's Discussion and Analysis
March 31, 2007

This section of Addison Fire Department and Emergency Medical Service's financial report presents our discussion and analysis of the Department's financial performance during the fiscal year ended March 31, 2007. It is best read in conjunction with the Department's financial statements that follow this section.

Using This Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Department financially as a whole. The *government-wide financial statements* provide information about the activities of the entire Department, presenting both an aggregate view of the Department's finances and a longer-term view of those finances. The *fund financial statements* provide the next level of detail by telling how services were financed in the short-term as well as what remains for future spending.

Reporting the Department as a Whole

One of the most important questions asked about the Department is "As a whole, what is the Department's financial condition as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities, which appear first in the Department's financial statements, report information on the Department as a whole and its activities in a way that helps you answer this question. We prepared these statements to include *all* assets and liabilities, using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenue and expenses regardless of when cash is received or paid.

These two statements report the Department's *net assets* - - the difference between assets and liabilities, as reported in the Statement of Net Assets - - as one way to measure the Department's financial health, or *financial position*. Over time, increases or decreases in the Department's net assets - - as reported in the Statement of Activities - - are one indicator of whether its financial health is improving or deteriorating. The relationship between revenues and expenses indicates the Department's operating results. However, the Department's goal is to provide services to the public, not to generate profits as commercial entities do. One must consider many other nonfinancial factors to assess the overall health of the Department.

Reporting the Department's Most Significant Funds

The Department's fund financial statements provide detailed information about the Department's most significant funds - - not the Department as a whole. Some funds are required to be established by State law and by bond covenants. However, the Department may establish other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money.

Governmental fund reporting focuses on showing how money flows into and out of the funds and the balances left at year-end that are available for spending in future periods. They are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the Department's operations and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial

**ADDISON FIRE DEPARTMENT
AND EMERGENCY MEDICAL SERVICE**

**Management's Discussion and Analysis
March 31, 2007**

resources that can be spent in the near future to finance the Department's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation.

The Department as a Whole

The following table provides a summary of the Department's net assets as of the end of the current and prior year:

TABLE 1 - NET ASSETS

	<u>2006</u>	<u>2007</u>
Assets		
Current Assets	\$ 405,680	\$ 487,425
Noncurrent Assets	<u>1,875,807</u>	<u>1,785,990</u>
Total Assets	<u>\$ 2,281,487</u>	<u>\$ 2,273,415</u>
Liabilities		
Current Liabilities	\$ 73,593	\$ 68,213
Noncurrent Liabilities	<u>67,992</u>	<u>25,647</u>
Total Liabilities	<u>\$ 141,585</u>	<u>\$ 93,860</u>
Net Assets		
Invested in Capital Assets - Net of Related Debt	\$ 1,769,982	\$ 1,726,268
Restricted	0	0
Unrestricted	<u>369,920</u>	<u>453,287</u>
Total Net Assets	<u>\$ 2,139,902</u>	<u>\$ 2,179,555</u>
Total Liabilities and Net Assets	<u>\$ 2,281,487</u>	<u>\$ 2,273,415</u>

The Department's net assets were \$2,179,555 at March 31, 2007, an increase of 1.85% from the prior year. Invested in capital assets, net of related debt totaling \$1,726,268 compares the original cost, less depreciation, of the Department's capital assets to long-term debt used to finance the acquisition of those assets. Restricted net assets (if any) are reported separately to show legal constraints from debt covenants or enabling legislation that limit the Department's ability to use those net assets for day-to-day operations. The remaining amount of net assets (\$453,287) was unrestricted. The \$453,287 represents the *accumulated* results of all past year's operations. The operating results of the General Fund will have a significant impact on the change in unrestricted net assets from year to year.

The results of operations for the Department as a whole for the current and prior year are summarized in the following table:

**ADDISON FIRE DEPARTMENT
AND EMERGENCY MEDICAL SERVICE**

**Management's Discussion and Analysis
March 31, 2007**

TABLE 2 - CHANGES IN NET ASSETS

	<u>2006</u>	<u>2007</u>
Program Revenue		
Charges for Services	\$ 613,854	\$ 697,480
Operating Grants and Contributions	1,945	25
Capital Grants and Contributions	0	30,000
General Revenue		
Unrestricted Investment Earnings	2,808	3,196
Other	<u>15,473</u>	<u>29,510</u>
Total Revenue	<u>\$ 634,080</u>	<u>\$ 760,211</u>
Expenses		
Public Safety - Fire & Ambulance	\$ 684,519	\$ 717,727
Interest on Long-Term Debt	<u>4,326</u>	<u>2,831</u>
Total Expenses	<u>\$ 688,845</u>	<u>\$ 720,558</u>
INCREASE (DECREASE) IN NET ASSETS	<u>\$ (54,765)</u>	<u>\$ 39,653</u>

The cost of all our governmental activities this year was \$720,558. These activities were mostly funded by the municipalities who benefited from the programs (\$697,480). We paid for the remaining portion of our governmental activities with donations, interest earnings, and other miscellaneous revenue, and accumulated surplus from prior years.

The Department experienced an increase in net assets of \$39,653 for the current year. The change in net assets differs from the change in fund balance, and a reconciliation appears on page 12 of the financial statements.

The Department's Funds

As we noted earlier, the Department uses funds to help it control and manage money for certain purposes. Looking at funds helps the reader consider whether the Department is being accountable for the resources taxpayers and others provide to it and may provide more insight into the Department's overall financial health. At March 31, 2007, the governmental funds reported a fund balance of \$466,807, which is an increase of \$88,613 from last year.

General Fund Budgetary Highlights

At the end of the year, the Department amends its budget as it attempts to deal with changes in revenue and expenditures. State law required that the budget be amended to ensure that expenditures do not exceed appropriations. A schedule showing the Department's original and final budget amounts compared with amounts actually received and paid is provided in the required supplemental information on pages 20-21 of the financial statements

Capital Asset and Debt Administration

At March 31, 2007, the Department had \$1,785,990 (net of depreciation) invested in capital assets that include land, buildings, vehicles, and equipment. This amounts represents a net decrease (including additions, disposals, and depreciation) of \$89,817.

**ADDISON FIRE DEPARTMENT
AND EMERGENCY MEDICAL SERVICE**

**Management's Discussion and Analysis
March 31, 2007**

Capital Asset and Debt Administration (continued)

Capital assets at year-end were as follows:

	<u>2006</u>	<u>2007</u>
Land	\$ 22,450	\$ 22,450
Buildings and Improvements	733,267	756,228
Furniture and Equipment	310,494	310,494
Vehicles	1,496,613	1,496,613
Less: Accumulated Depreciation	<u>(687,017)</u>	<u>(799,795)</u>
Total Capital Assets, net of depreciation	<u>\$ 1,875,807</u>	<u>\$ 1,785,990</u>

At March 31, 2007, the Department had an outstanding note payable of \$59,722 from the purchase of a fire truck in the 2003-04 fiscal year, and compensated absences payable of \$13,520.

Factors Bearing on the Department's Future

With the changing economic environment, the Department will be facing challenges of maintaining the services we are able to provide today. With the rising costs of doing business (fuel, insurance, and competitive wages for the level of service and training required today), coupled with the declining revenue sharing, it will be difficult to balance income to expenditures.

Also, over the next 3 to 5 years, the Department should be looking to replace a 1992 Pumper/Tanker at a cost of around \$450,000, and an ambulance will need to be replaced in the next year or two at a cost of about \$145,000. Some of the other apparatus that is likely nearing the replacement age and condition would be the brush trucks (2) costing approximately \$67,000 each.

Contacting the Department's Management

This report is designed to give an overview of the financial conditions of the Addison Fire Department and Emergency Medical Service. If you have any questions about this report or need further information, please contact the Fire Chief at 319 E. Main Street, Addison, MI 49220, telephone (517) 547-6776 or (517) 937-7940.

ADDISON FIRE DEPARTMENT AND EMERGENCY MEDICAL SERVICE
Reconciliation of the Statement of Revenue, Expenditures and Changes in Fund
Balance of Governmental Funds to the Statement of Activities
For the Year Ended March 31, 2007

Net Changes in Fund Balance - Total Governmental Funds \$ 88,613

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Add: Capital Outlay	22,961
Deduct: Depreciation Expense	(112,778)

Repayment of debt principal is an expenditure in the governmental funds, but not in the statement of activities.	46,103
--	--------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

Deduct: Increase in accrual for compensated absences	<u>(5,246)</u>
--	----------------

Change in Net Assets - Governmental Activities	<u><u>\$ 39,653</u></u>
--	-------------------------

The accompanying notes are an integral part of this statement.

NOTES TO THE FINANCIAL STATEMENTS

ADDISON FIRE DEPARTMENT AND EMERGENCY MEDICAL SERVICE
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Addison Fire Department and Emergency Medical Service was formed by municipalities in the Addison, Michigan area to provide fire protection and ambulance services. It is governed by a board made up of representatives from each of the municipalities.

The accounting policies of Addison Fire Department and Emergency Medical Service conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Department (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The following is a summary of significant accounting policies used by Addison Fire Department and Emergency Medical Service:

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements are not misleading. The primary government of the Addison Fire Department and Emergency Medical Service consists of all funds, departments, boards and agencies that are not legally separate from the Department.

Component units are legally separate organizations for which the Department is financially accountable. Component units may also include organizations that are fiscally dependent on the Department in that the Department approves their budget, the issuance of their debt, or the levying of taxes. The Department has no component units.

Government-Wide and Fund Financial Statements

Government-Wide Financial Statements - The statement of net assets and the statement of activities display information about the Department as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the Department's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Unrestricted investment income, and other items not properly included among program revenues are reported as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Department.

Fund Financial Statements - Fund financial statements report detailed information about the Department. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

ADDISON FIRE DEPARTMENT AND EMERGENCY MEDICAL SERVICE
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Measurement Focus and Basis of Accounting

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. Municipal ambulance agreements are recognized as revenue in the year for which the related property taxes are levied by the participating townships. Municipal fire agreements and ambulance fees are recorded as revenue when they are invoiced. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is to be collected with the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if it is collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when the liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

Under the modified accrual basis, municipal ambulance and fire agreements, ambulance fees, interest, and grants are considered to be both measurable and available at fiscal year-end. Grants received before the eligibility requirements are met are recorded as deferred revenue.

Financial Statement Presentation

The Department uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain Department functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

The Department reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the Department. It is used to account for all financial resources except those required to be accounted for in another fund.

Assets, Liabilities, and Net Assets

Bank Deposits and Investments - Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less.

Capital Assets - General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The Department maintains a capitalization threshold of \$2,500. The Department does not possess any infrastructure. Improvements are capitalized; the cost of

ADDISON FIRE DEPARTMENT AND EMERGENCY MEDICAL SERVICE
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings & Improvements	50 years
Furniture & Equipment	5 - 15 years
Vehicles	10 - 25 years

Compensated Absences - It is the Department's policy to permit management employees to accumulate earned but unused vacation and sick pay benefits. Compensated absences are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignation, retirement, or death.

Long-Term Obligations - In the government-wide financial statements, all payables, accrued liabilities and long-term obligations are reported as liabilities in the statement of net assets. In the fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs are reported as debt retirement expenditures.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information - The budgetary process is prescribed by provisions of the State of Michigan Budget Act and entails the preparation of budgetary documents within an established timetable. The legal level of budgetary control has been established by the Department at the line-item level. Any budgetary modifications may only be made by resolution of the Department. All annual appropriations lapse at fiscal year end.

During the year ended March 31, 2007, the Department incurred expenditures in excess of the amount appropriated. These variances are as follows:

	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
FIRE			
Vehicle Expense	\$ 5,600	\$ 5,627	\$ 27
Rent and Utilities	16,500	16,561	61
Miscellaneous	3,800	3,821	21
Capital Outlay	20,361	22,961	2,600

Operating Supplies	3,900	4,153	253
Rent and Utilities	17,600	17,794	194
Miscellaneous	1,450	1,480	30

NOTE 3 - DEPOSITS AND INVESTMENTS

State statutes authorize the Department to deposit and invest in the accounts of Federally insured banks, credit unions, and savings and loan associations; bonds, securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or Federal agency obligations; repurchase agreements; bankers' acceptance of United States banks; commercial paper rated by two standard rating agencies within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. Financial institutions eligible for deposit of public funds must maintain an office in Michigan. The Department's investment policy makes no further limitation on investments. As of March 31, 2007, the Department's deposits are in accordance with statutory authority.

The Department's deposits and investments are subject to several types of risk, which are examined in more detail as follows:

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Department minimizes credit risk by limiting investments to the types of securities allowed by State law. The Department has no policy that would further limits its investment choices.

Concentration of Credit Risk - The Department places no limit on the amount the Department may invest in any one issuer.

Custodial Credit Risk - Custodial credit risk for deposits is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. The Department does not have a formal policy for custodial credit risk. At March 31, 2007, the carrying amount of the Department's bank deposits was \$411,606 and the bank's balance was \$415,675. Of the total bank balance, \$122,792 was covered by federal depository insurance and \$292,883 was uninsured. The Department believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Department evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution. Only those institutions with an acceptable estimated risk level are used as depositories.

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The Department has no policy that specifically identifies interest rate risk.

Foreign Currency Risk - The Department is not authorized to invest in investments which have this type of risk.

ADDISON FIRE DEPARTMENT AND EMERGENCY MEDICAL SERVICE
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 4 - RECEIVABLES

Receivables at March 31, 2007, consist of municipal ambulance agreements and ambulance fees. Municipal ambulance agreements are considered collectible in full due to the collectibility of the related property taxes. Ambulance fees receivable are shown as net of estimated uncollectible amounts.

A summary of the principal items of receivables follows:

Municipal Ambulance Agreements	\$ 41,339
Ambulance Fees	<u>34,480</u>
	<u>\$ 75,819</u>

NOTE 5 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended March 31, 2007, was as follows:

	Beginning Balance	Additions	Deletions	Ending Balance
Capital assets not being depreciated				
Land	\$ 22,450	\$ 0	\$ 0	\$ 22,450
Total	<u>\$ 22,450</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 22,450</u>

Total capital assets, net	<u>\$ 1,875,807</u>	<u>\$ (89,817)</u>	<u>\$ 0</u>	<u>\$ 1,785,990</u>

NOTE 6 - LONG-TERM DEBT

The Department purchased a 2003 Pierce Fire Truck on June 27, 2003 for \$370,420. The truck was partially financed through \$225,000 note with United Bank & Trust. The note requires quarterly payments of \$12,233.50 including interest at 3.0% through July 1, 2008. The fire truck serves as collateral for the loan.

The following is a summary of changes in long-term debt for the year ended March 31, 2007:

	Balance March 31, 2006	Increases	Decreases	Balance March 31, 2007	Due Within One Year
Compensated Absences	\$ 8,274	\$ 5,246	\$ 0	\$ 13,520	\$ 0
Note payable	<u>105,825</u>	<u>0</u>	<u>46,103</u>	<u>59,722</u>	<u>47,595</u>
	<u>\$ 114,099</u>	<u>\$ 5,246</u>	<u>\$ 46,103</u>	<u>\$ 73,242</u>	<u>\$ 47,595</u>

ADDISON FIRE DEPARTMENT AND EMERGENCY MEDICAL SERVICE
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 6 - LONG-TERM DEBT (continued)

The amounts needed to retire long-term debt at March 31, 2007, including \$1,446 interest, are as follows:

		<u>Note Payable</u>
Year ended March 31,	2008	\$ 48,934
	2009	<u>12,234</u>
	Total	<u>\$ 61,168</u>

NOTE 7 - MUNICIPAL FIRE AND AMBULANCE AGREEMENTS

Addison Fire Department and Emergency Medical Service provides fire service and ambulance service to five local municipalities. The fire service agreement calls for cost sharing to be billed quarterly, based on a percentage of annual budgeted expenditures. The percentage is determined by the average number of fire alarms within each municipalities during the previous three years. The percentages used for the 2006-07 fiscal year were as follows:

Woodstock Township	47.67%
Rollin Township	30.33%
Wheatland Township	15.00%
Village of Addison	10.00% (minimum)
Village of Cement City	\$3,500 flat rate

For ambulance services, a millage of 1.0 mill (subject to Headlee rollback limitations) is levied in each of the three townships, voted specifically for provision of ambulance services by the Addison Fire Department and Emergency Medical Service. This revenue is recorded as Service Agreement Revenue in an amount equal to the total taxes levied, which was \$300,401 for tax year 2006. The Fire Department also receives a portion of a .40 mill ambulance levy in Hillsdale County, allocated by the Hillsdale County Commissioners (\$16,025 for the year).

NOTE 8 - DEFINED BENEFIT PENSION PLAN

Plan Description

The Fire Department participates in the Municipal Employees Retirement System of Michigan (MERS), an agent multiple-employer plan administered by the Retirement Department of MERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Act No. 427 of the Public Acts of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. MERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the MERS, 447 N. Canal Road, Lansing, Michigan, 48917, or by calling (800) 767-6377.

Funding Policy

The Department is required to contribute at an actuarially determined rate designed to accumulate sufficient assets to pay benefits when due. The current requirement is 10.8% of covered wages. The contribution requirements of the Department are established by Act No. 427 of the Public Acts of 1984, as amended, and may be amended by MERS. The contribution requirements of plan members, if any, are established and may be amended by the Department.

Annual Pension Cost

For the year ended March 31, 2007, the Fire Department's pension cost was \$13,522. The required contribution was determined as part of a December 31, 2006 actuarial valuation using the

ADDISON FIRE DEPARTMENT AND EMERGENCY MEDICAL SERVICE
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 8 - DEFINED BENEFIT PENSION PLAN (continued)

entry age normal actuarial method. The actuarial assumptions included (a) a rate of return on the investment of present and future assets of 8.0%, (b) projected salary increase of 4.5% per year compounded annually, attributable to inflation, and (c) additional projected salary increases based on an age-related scale to reflect merit, longevity and promotions. The actuarial value of MERS assets was determined on the basis of a valuation method that assumes the fund earns the expected rate of return, and includes an adjustment to reflect market value. The Fire Department's unfunded actuarial accrued liability is being amortized as a level percentage of payroll on an open basis.

Three-Year Trend Information

<u>Fiscal</u> <u>Year</u> <u>Ending</u>	<u>Annual</u> <u>Pension</u> <u>Cost (APC)</u>	<u>Percentage</u> <u>of APC</u> <u>Contributed</u>	<u>Net</u> <u>Pension</u> <u>Obligation</u>
3/31/05	\$ 15,479	100%	0

<u>Actuarial</u> <u>Valuation</u> <u>Date</u>	<u>Actuarial</u> <u>Value of</u> <u>Assets</u>	<u>Actuarial</u> <u>Accrued</u> <u>Liability</u> <u>(AAL) -</u> <u>Normal Cost</u>	<u>Assets in</u> <u>Excess of</u> <u>AAL</u>	<u>Funded</u> <u>Ratio</u>	<u>Covered</u> <u>Payroll</u>	<u>UAAL as a</u> <u>Percentage of</u> <u>Covered</u> <u>Payroll</u>
12/31/04	\$ 13,272	\$ 14,584	\$ (1,312)	91%	\$ 119,812	1%
12/31/05	27,843	34,866	(7,023)	80%	128,008	5%
12/31/06	44,145	94,542	(50,397)	47%	128,098	39%

NOTE 9 - RISK MANAGEMENT

The Fire Department is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries, as well as medical benefits provided to employees. The Fire Department has purchased commercial insurance for each of these areas as risk. There has been no significant reduction in insurance coverages and settled claims have not exceeded the amount of insurance coverage in any of the past 3 years.

NOTE 10 - UNEMPLOYMENT TAXES

The Fire Department is a reimbursing employer to the Michigan Unemployment Insurance Agency and as such is responsible to pay the Agency for those benefits paid and charged to its account. As of March 31, appropriate liabilities have been recorded for all claims paid by the Agency. However, no provision has been made for future payments that might result from claims in process or unfilled.

Addison Fire Department and Emergency Medical Service
Addison, Michigan

In planning and performing our audit of the financial statements of Addison Fire Department and Emergency Medical Service (the "Department") as of and for the year ended March 31, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered the Department's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies and other deficiencies that we consider to be material weaknesses.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the following deficiency to be a significant deficiency in internal control.

Compensated Absences

The Department has a policy that permits management employees to accumulate earned but unused vacation and bereavement pay benefits; however, the policy does not state how or if accumulated benefits would be paid out upon separation from employment. We recommend that the policy be amended to address this issue.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We believe that the following deficiency constitutes a material weakness.

Financial Statement Preparation

The Department does not have procedures in place to prepare financial statements in accordance with accounting principles generally accepted in the United States of America, including procedures to record accruals for revenue and expenditures, to track changes in capital assets, and to present required financial statement disclosures. We recognize the time and expense that would be required to obtain the necessary training and expertise to perform this task internally. We recommend that you continue to carefully review the draft financial statements and notes prepared by your external auditors prior to approving them and accepting responsibility for their content and presentation.

In addition, we noted other matters involving the internal control and its operation that we did not consider to be significant deficiencies or material weaknesses.

Annual Budget

State law requires that a public hearing be held by the legislative body before passage of the annual budget. We recommend that the required public hearing be held and documented in the minutes at your March meeting each year. Information regarding the hearing should also be included in your public notice prior to the meeting.

We further recommend that the budget be monitored carefully and amended when necessary to avoid any over-expenditure.

This communication is intended solely for the information and use management, the Fire Board, and others within the Department, and is not intended to be and should not be used by anyone other than these specified parties.

Barley, Hodshire + Company, P.C.

Jonesville, Michigan

August 13, 2007
